

EARTH HOUR - 2019

The Theme for Earth Hour-2019 is "Change the way we live"

The below initiatives were undertaken on this occasion –

1. Awareness campaigns in the terminal regarding Earth Hour

Awareness campaigns conducted in the terminal involving employees, contractors to highlight environmental issues, climate change and tips for saving energy. Theme for Earth Hour-2019 "**Change the way we live**" was discussed with the gathering. They were briefed on the Earth hour and were encouraged to switch off lights at Earth hour. Also they mentioned that their commitment is forever to protect Earth and will continue all possible ways to limit the energy use. The awareness to employees was spread through poster display on notice boards, email communications, tool box etc.

2. Visit to nearby local village – Awareness campaign with housewives

An awareness campaign was arranged at Bokadvira and Bori village, Uran on this occasion. HSE Representative provided awareness on energy saving like use of energy efficient appliances at home, switch off electrical appliances when not in use. The participants were keen to share the initiatives at their residence as well. Most of them have basic awareness on current environmental issues and were keen to ask questions about more ideas on energy saving. They also agreed to switch off lights during Earth hour and said they remain committed to protect Mother Earth.
