

"SAY NO TO PLASTIC ABHIYAN"

Plastic pollution is one of the major problems of our times. "Say no to Plastic Abhiyan" was conducted in month of February. Awareness campaigns were conducted through competitions, E-mails, Notice board display & toolbox talks involving employees, contractors, external truck drivers to realize the danger behind the daily used plastic products. Awareness regarding how plastic is changing the face of earth, adverse health impact caused by plastic usage for serving hot food and beverages, impact on environment has been discussed in the session. Awareness provided to employees & contractors for switching to alternatives like recycled paper bags, jute bags, tips for reducing plastic usage were discussed during the campaign sessions.

ART OF REUSE competition

Art of Reuse competition was conducted at our terminal. Employees as well as their family members participated in this competition. As a part of this we organized competition for showcasing our contribution towards "Reduce, Reuse and Recycle, Recreate- **4R**" concept. This is an initiative to uphold the 4R concept in our families through reusing trash materials into useful products. Employees took active participation and created amazing products from scrap and plastics. An exhibition of same has been organized to showcase the up-cycled products.
