## RFID Tag on all Trailers engaged with DP World

### Dear Valued Customers,

In keeping with D.P.World's commitment to progress through innovation, we have equipped the Gate Complex of NS(I)GT with the state of the art 'Gate Automation Systems',

'O.C.R's working in concert with an array of high definition cameras as well as RFID enabled systems will ensure a smooth and flawless entry and exit from the terminal. To assist this system, we will be affixing RFID tags on all trailers engaged with DP World. These tags will be manually affixed to the inner surface of the trailers windshield by our staff and same will be read by the respective readers placed at strategic locations.

We trust that you will ensure all trailer owners / drivers will take good care of these tags which will be free of charge.

Should the original tag be damaged or lost, the replacement will be charged for. Please be advised, that without the tag, the trailer will not gain entry into NS(I)GT.

Taking you forward with us on our journey to success.

In case of any clarification please feel free to contact us.

DP World Nhava Sheva appreciates your support and execution in this regard.

Look forward to your continued support.

Best Regards,

DP World Nhava Sheva
